

## Monday, Sept. 18

18.00-23.00 Icebreaker party

## Tuesday, Sept. 19

9.00-9.30 Opening ceremony

### **Session 1 - convenor L. Ackerman**

9.30-10.00	L. Ackerman	The Composition of Upper Mantle beneath the Bohemian Massif: the View from Mantle Xenoliths
10.00-10.30	J. Puziewicz	Architecture of Mantle Root of Variscan Orogen in Europe
10.30-10.45	COFFE BREAK	
10.45-11.15	S. Kuboušová	Lead isotope evolution of the upper mantle beneath the Bohemian Massif
11.15-11.45	A. Kukuła	Melt-Rock Reactions in Mantle Xenoliths from the Heldburg Dyke Swarm (Central Germany): Inconsistent Interpretations from Geochemical and Crystal Preferred Orientation data
11.45-12.15	M. Matusiak-Małek	Mafic and Ultramafic Xenoliths from Ruddon's Point Basanite – Insights into Lithosphere beneath Central Scotland
12.15-14.00	LUNCH	

### **Session 2 - convenor J. Pfänder**

14.00-14.30	T. Sági	Evolution of Alkali Basaltic Magmas, Nógrád-Selmec Volcanic Field (Southern-Central Slovakia)
14.30-15.00	T. Magna	Noble Gas Isotope Systematics in Cenozoic Alkaline Volcanic Rocks and Mantle Xenoliths of the Bohemian Massif
15.00-15.30	M. Lustrino	Carbonatite melt + solid silicate or solid carbonate + silicate melt? Petrographic and mineral chemical evidences for shallow-depth contamination at Polino (central Italy)
15.30-15.45	COFFE BREAK	
15.45-16.15	M. Lustrino	Experimental constraints on limestone-ultrabasic/basic melt interaction at 2 kbar
16.15-16.45	K. Deniz	Petrology of the Samsun Lamprophyres: Central Pontides–Turkey
16.45-17.15	T. Larikova	Metasomatic Transformation of the Lamprophyres at their Contacts with Granites and Marbles (Bohemian Massif)
17.15-18.45	Poster session	
19.00	DINNER	

## Wednesday, Sept. 20

### Session 3 - convenor M. Petronis

9.00-9.30	M. Petronis	Magma emplacement and feeder conduit geometries beneath monogenetic volcanoes revealed via structural and rock magnetic studies, and geophysical imaging
9.30-10.00	P. Hrubcová	Active Magmatic Underplating in an Intraplate Setting: Combined Seismic, Seismological, and Isotope Study in Western Eger Rift, Central Europe
10.00-10.30	J. Büchner	Age relations, mineral-chemical and isotopic investigations on basaltic gem stone zircons from Eastern Germany
10.30-10.45	COFFE BREAK	
10.45-11.15	T. Koralay	Crystallization Conditions of the Toygar Volcanics (Alasehir-Western Anatolia / Turkey)
11.15-11.45	L. Nováková	Drawback of Sunburn Basalt – Case Study from the Borská Skalka
11.45-12.15	M. Petronis	Magma Emplacement and New Geochemical and Petrographic Data from the Oligocene Zákupy Diatreme, Czech Republic
12.15-12.45	V. Pathak	Paleomagnetic, AMS and magnetostratigraphic studies on lava flows from Mandla lobe of the Eastern Deccan volcanic province, India
12.45-14.30	LUNCH	
14.30-19.00	Intra-meeting fieldtrip (walk to Úhošť Hill)	
19.00	DINNER	

## Thursday, Sept. 21

### Session 4 - convenor B. van Wyk de Vries

9.00-9.30	B. van Wyk de Vries	Global Volcanoes and Tectonics: an System Approach to a Linked Geological Process
9.30-10.00	Z. Pécskay	Systematic K-Ar Geochronological Survey in the Southern Part of the Main Ethiopian Rift: Implications for Rift Evolution
10.00-10.30	J. Büchner	Volcanological reconstruction of the polycyclic Lausche Volcano in the Lausitz Volcanic Field (Germany / Czech Republic)
10.30-10.45	COFFE BREAK	
10.45-11.15	V. Rapprich	Volcanic History of the Doupovské Hory Volcanic Complex: an Overview
11.15-11.45	E. Kadlecová	The Contribution to Occurrence of the Fossils in the Volcaniclastic Deposits of Doupovské Hory Mts.
11.45-12.15	J. Sakala	New Fossil Woods from the Bentonite Pit in Rokle near Kadaň
12.15-14.00	LUNCH	

**Session 5 - convenor J. Martí Molist**

14.00-14.30	J. Martí	Conducting Hazard Assessment at Monogenetic Volcanic Fields
14.30-15.00	K. Verner	Neotectonic History and Geohazard Risk Assessment in the Main Ethiopian Rift and Afar Triple Junction
15.00-15.30	B. van Wyk de Vries	Dallol Volcano Ethiopia: A multi-risk local and global story
15.30-15.45	COFFE BREAK	
15.45-16.15	L. Megerssa	Inventory of key Geo-sites in the Butajira Volcanic Field: Perspective for the First Geo-park in Ethiopia
16.15-16.45	O. Tietz	The Stolpen Volcano in the Lausitz Volcanic Field (East Germany) – volcanological, petrographic and geochemical investigations at the type locality of basalt
16.45-17.15	P. Matysová	Anomalous Wood Mineralisation from Tuffs and Phreatomagmatics of České Středohoří and Doupov Mts.
17.15-19.00	Poster session and Discussions	
19.00	DINNER
